“Vegetable Twister”

Turn your Vegetables into attractive
Spaghetti or Spirals in seconds!

Designed in Switzerland Made in Germany

- **Great visual effect**
- **Perfect for garnishes**
- **Easy to use and clean**
- **Almost no effort required**
- **Easy storage, fits in a drawer with ease**
- **2 easily assembled parts**
- **2 different effects (spaghetti or spiral)**
- **Makes vegetables fun for both children and adults alike**

In the Vegetable Twister, cucumbers, potatoes, carrots, zucchinis, and many other types of vegetables are transformed into endless spirals and spaghetti.

First the selected vegetable is slipped on to the twister screw.

Second, you attach the slicing attachment – either “spiral” or “spaghetti”.

Then twist away, whilst creating endless lengths of decorative and distinctive Vegetable Spirals or Spaghetti.

With almost no effort, a result is achieved that opens up new culinary possibilities and that will amaze both your family and guests alike.
