## **TECHNICAL INFORMATION**

### **GRAPHIC pattern :**

Superior stainless steel (X46CR13) with a minimum of 13 % chrome : for a better resistance to corrosion

The blade is laser cut : for a perfect shape of the blade

Heat treatment at 1,000°C : gives the steel exceptional hardness, a guarantee of long life

Cryogenisation at – 80°C : removes all residual impurities and optimises resistance to corrosion and wear

Cutting edge done by numerical machines : regular and long lasting cutting

Polishing of the cutting edge : perfect cutting

Ergonomic ABS handle with a soft touch handle

Original aesthetics, with a graphic printing on the blade

Delivered in a TB DESIGN gift box

Magnet inside the box + transparent sticker at the top of the knife blade

Not dishwasher safe

Cleaning care advice : wash by hand, wipe it and dry it before putting it away. The blades are sharpened easily by using a sharpening steel or a fine grit sharpening stone.

### **SEDUCTION pattern :**

Superior stainless steel (X46CR13) with a minimum of 13 % chrome : for a better resistance to corrosion

The blade is laser cut : for a perfect shape of the blade

All stainless steel handle : perfect hygiene

Heat treatment at 1,000°C : gives the steel exceptional hardness, a guarantee of long life

Cutting edge done by numerical machines : regular and long lasting cutting

Finishing carried out entirely by hand

Polishing of the cutting edge : perfect cutting

Ergonomic handle
